Silicone Blade

"Peel garlic hassle free"

Silicone blade

1. Inserted the silicone blade into drive shaft of container, make sure in the right place.
2. Peel the surface of the garlic and put the garlic into the bowl piece by piece.
3. Put on the cover and then tighten it clockwise.
4. Power the plug, choose the second speed, the machine starts to work, it is finished within 30 seconds.
5. After peeling, turn the switch back to zero speed, also plug off, take out the container components, open cover, take out the food.
6. Please do according to the above information, if need reuse.
