DYNAMIC PREPARATION

COMMERCIAL VEGETABLE PREPARATION MACHINES

Vegetable preparation machine CA-401

COMMERCIAL VEGETABLE PREPARATION MACHINE WITH AN HOURLY OUTPUT OF UP TO 650 KG.

1 speed motor block and a large production attachment. Discs are not included*.

The shape of the pusher has been conceived to deliver comfortable usage, fast processing and the ability to handle larger products such as cabbage. The high-positioned ejection disc allows the handling of more product without loss of quality in the finished product.

· Stainless steel construction and high quality material, all suitable for contact with food.
· New production technology that give a uniform, highest-quality cutting result.
· Large production head with lateral blade, which distributes the product inside the inlet, and handles entire products such as cabbage.
· The core drill (included) can also be used to achieve the same purpose.
· High positioned ejection disc allowing to eject a bigger product quantity.
· The large range of high quality discs and grids allows the operator to obtain over 70 different styles of product.
· Ergonomic design.
· Lateral product ejection, which allows the appliance to be placed in a less deep working surface.
· This directs the product avoiding splashing.

DEFAULT EQUIPMENT
· 1 speed motor block.
· Large capacity hopper.
· Core drill (optional use).

OPTIONAL EQUIPMENT
· Long vegetable attachment.
· Automatic hopper.
· Stand-trolley

TECHNICAL SPECIFICATIONS

Hourly production: 200 Kg - 650 Kg

Inlet opening dimensions: 286 cm2
Disc diameter: 205 mm
Motor speed: 365 rpm

Total loading: 550 W

External dimensions (WxDxH)
Width: 389 mm
Depth: 382 mm
Height: 646 mm

Net weight: 24 Kg
Noise level (1m.): <70 dB(A)
Background noise: 32 dB(A)
