Sushi Wrapping Machine

LW-202

This unit neatly wraps each piece of sushi with film.

Feature

- Individually wrapped sushi stays fresh longer and looks neater. Moreover, it is highly hygienic.
- The LW-202 is capable of wrapping sushi in various weights from **16g to 22g**.
- It can also wrap sushi much more neatly than any other product on the market.
- The LW-202 has a function that can recognize your logo (designed by you) and imprint the logo on the wrapping film.
- *This is an excellent way to promote your company.*
(Optional)
- Upgraded and differentiated machinery parts
- Stainless-steel and aluminum material prevents rust with long term use.
