

FEATURES

- Oil lubricated rotary vane vacuum pump, nominal speed 20 m³/h;
- Vacuum level control through high precision absolute-type vacuum sensor, which does not require calibration;
- Maximum vacuum 99,8% (2 millibar);
- 410 mm sealing bar, easily removable for cleaning;
- Standard inert gas injection with 2 nozzles; the "Gasplus" system allows to reach percentages of inert gas volume equal to 90% of the vacuum chamber, allowing the packaging of products extremely sensitive to crushing;
- Brilliant stainless steel vacuum chamber with constant thickness, easy to clean being free of edges and receptacles;
- 10 editable user programs;
- 1 cycle for vacuum containers;
- 1 deaeration "chef" cycle (Degas);
- "H2Out" pump oil dehumidification cycle,
- Resettable oil change alarm;
- Cool down product warning ("Hot");
- Menu accessible to technical assistance for parameter adjustment and reading of cycles carried out;
- Waterproof control panel, resistant to liquids, humidity, dirt and dust;
- Electronic control and power cards protected from moisture and dirt by fireproof plastic covers;
- High-thickness PMMA (Plexiglass) lid with polished and rounded edges; opens automatically at the end of the cycle;
- Lowering system of the lid at the end of the work in the rest position by releasing the rear gas spring, which allows to release the tension on the gas spring and on the lid;
- Access for easy maintenance through front opening of the casing;
- Standard "Easy" accessory for external vacuum in embossed bags;
- 2 PE-filling plates for product adjustment and cycle speed up.

DESCRIPTION

The models of the "Chef-Vac"-line by Friulmed stand out for their ease of use and versatility, which make them ideal work tools in any professional kitchen. Entirely made of AISI304 stainless steel, they stand out for the digital control panel, the absolute vacuum sensor, the inert gas injection - possible up to 90% of the vacuum chamber volume thanks to the "Gasplus" device - as well as for the standard "Degas" cycle, which also allows liquid products to be easily vacuum packed.
