

Technical data sheet

Acidic All-purpose Rinse Aid

B 2 S

All-purpose rinse aid especially for hard water and for use with plastic and stainless steel dishes

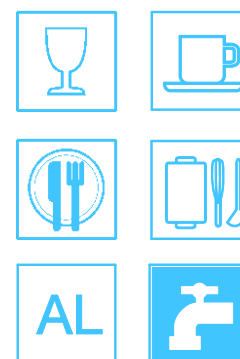

Area of application:

- Suitable for professional glass washing machines, frontloading, rack pass-through, rack conveyor dishwashing machines, flight-type machines and utensil washers in restaurants, hotels and commercial catering kitchens, as well as bakeries and butchers' shops.
- Suitable for drinking glasses and other dishes made of glass, porcelain, plastic, stainless steel and aluminium as well as cutlery and equipment.
- Especially suitable for poorly wettable dishes made of stainless steel and plastic, such as reusable cups, transport boxes, trays and insulating systems.
- Especially suitable for use with hard water.

Dosage:

0.1 to 0.4 ml/l via automatic dosing equipment, depending on the type of the dishes and the water quality.

Having automatic dosing set on-site by Winterhalter customer service assures perfect wash result

Product advantages:

- Highly concentrated.
- Improved excellent dish wetting.
- Very good draining even of plastic and stainless steel.
- Spotless drying.
- Brilliant shine.
- Formula optimized to prevent scale build-up.

Ingredients:

Non-ionic Tenside, Sodium Cumolsulfonate, Citric Acid

Technical data sheet

Acidic All-purpose Rinse Aid

B 2 S

Important:

- This product is not intended for general public. For commercial use only!
- Storage and transport permissible only in original packaging in upright position. Do not expose to direct sunlight. Protect from freezing.
- Drum sprout are available to aid filling of the built in detergent containers. To avoid confusion, F300 detergent may only be filled in containers marked detergent.
- Never mix with other products and do not refill in other containers, bottles, etc.
- Containers, pipes and dosing equipment should be rinsed with fresh water before changing products.
- To ensure reliability and long life for your dishwasher all filters should be cleaned at the end of operation after the self-cleaning programme has ended. Leave the machine open slightly so the interior can dry in and order to build up corrosion protection.
- For cleaning and maintaining the stainless steel coverings of the machine we recommend Winterhalter C 112 Manual Dishwashing Concentrate as well as Winterhalter C 161 Stainless Steel Polish.
- You will find this product's safety sheet, technical data sheet, on our homepage at www.winterhalter.com.my.
