

*Our dedication to create a perfect juicer*

# Whole Slow Juicer Chef

Voltage	AC 220-240V, 50/60Hz AC 110-127v, 50/60Hz
Power Consumption	200W
Weight	9.1kg
Dimension	260*183*515mm
Type	Low Speed Compression
Origin	Made in Korea

**ALL NATURAL**

A fresh approach to nutrient rich juice

**Low Speed**

Quietly operates at 60rpm, minimizing noise and vibration

**Less Heat**

Juicer Module Comprising System (JMCS) does not build up any heat while juicing to preserve important nutrition

**Lots of Vitamins**

Retains abundant Vitamins, Mineral and Enzymes

## COLD PRESSED JUICING

- Patented for low-speed juice extraction
- Press and squeeze ingredients slowly

## BIGGER CAPACITY

- 40L/hr (apple juice)

## NON-STOP FOR 12 HOURS

- Heavy-duty motor for longer operation
- Extracts juice with a rate of 300 apples per hour

## POWERFUL AND QUIET MOTOR

- Low-speed reduction motor
- Industry's strongest motor
- Quiet operation
- Minimum vibration

## WIDER FEEDING CHUTE

- 3.5 inch wide (88mm) flap gate
- Lowers extraction time

## DUAL FEEDING CHUTE

- Dual feeding-chute eliminates overload of the ingredients
- Process various size and shapes of ingredients

## SMART CAP

- Convenient and practical
- Mixed juice
- Prevent dripping
- Quick rising before your next session

## STYLISH METALLIC BASE

- Slim and durable
- Attractive design for commercial use
- Stainless steel
