Alcohol Based Hand Sanitizer & Disinfectant - SaniShark™ Sanitizer

Alcohol Based Hand Sanitizer & Disinfectant - SaniShark™ Sanitizer

Fast & Effective

According to CDC guidelines, 70-75% alcohol is effective against SARS-CoV-2. SaniShark™ contains 75% denatured alcohol and prevents the spread of germs on surfaces by killing 99.9% of germs in 30 seconds.

Lab tested according to UP51 and EN14476, some of which includes *Pseudomonas Aeruginosa*, *E.Coli*, *Candida Albicans*, and *Novovirus*. Medical grade sanitizer for use in healthcare setting, workplace or public areas.

Improved Formulation

Added with Chlorhexidine (CHG) to provide extra antimicrobial benefits. 75% alcohol + CHG mixture is commonly used in operating theatre for hand wash.

Chlorhexidine alone is used as antibacterial agent for mouthwash, safe contact with mucous membrane. Excellent contact time of 1 min (99.99% killed within 1 minute)

Alcohol Based Hand Sanitizer & Disinfectant - SaniShark™ Sanitizer

Gentle on the hand

Contains **Allantoin** (extracted from comfrey leaves) which nourishes and soothes the skin. Dermatologically tested.

Allantoin acts as skin-soothing and moisture regulating agent. Possesses anti-inflammatory and cell renewal properties

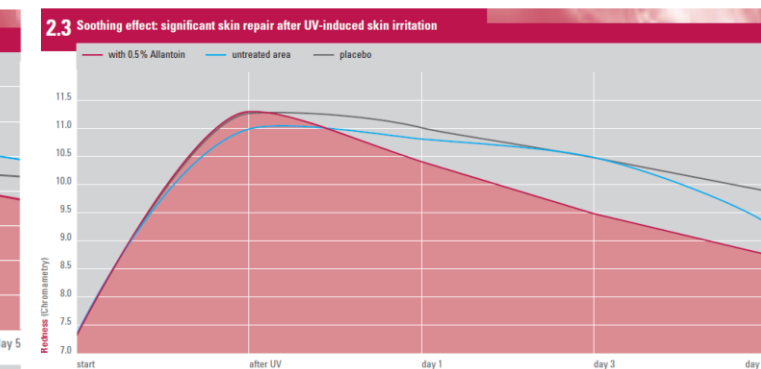

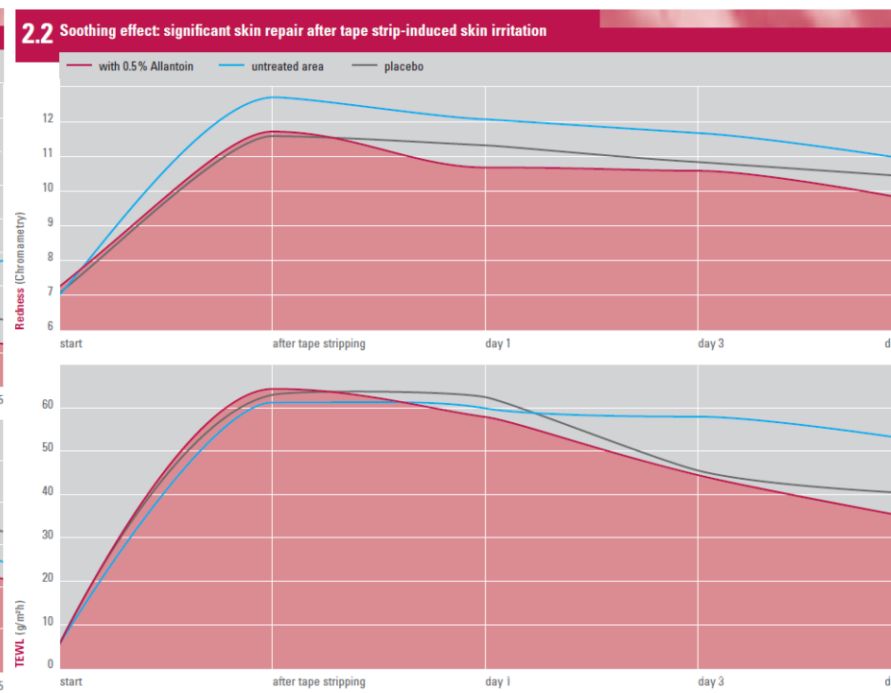

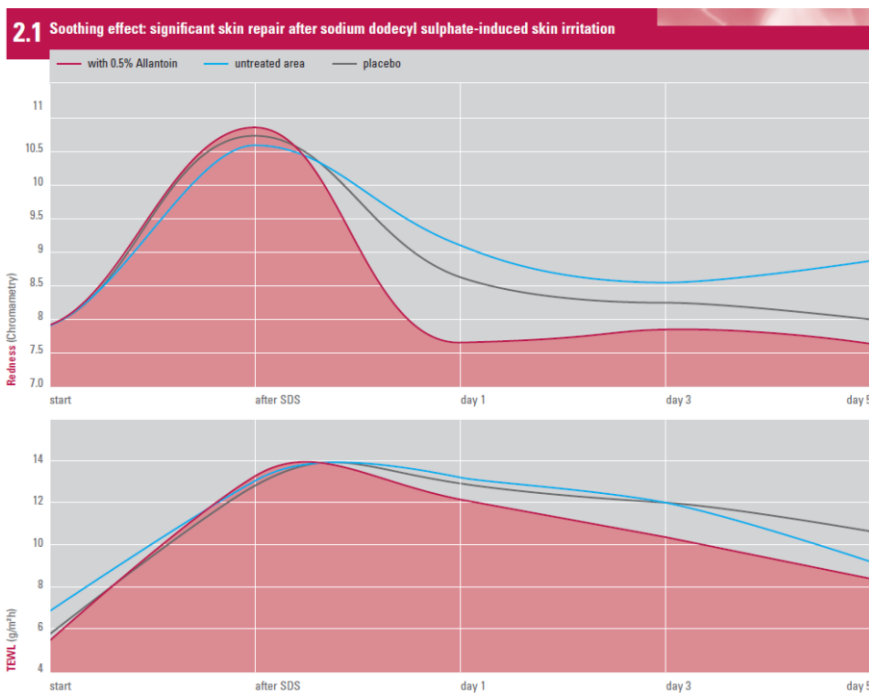

Contains Jojoba beads which nourishes the hands.

Allantoin's Soothing Effect:

Mechanically induced irritation

Chemically-induced irritation

UV-induced irritation
