

IKAWA PROFESSIONAL INSECTS LIGHT TRAP EQUIPMENTS

IKAWA PRO IK-BT420

Ideal for Food Processing / Large Kitchen / Factory / Warehouse

Designed for large environments that require high hygienic conditions. POSITIONING Lamps have to be installed far away from light sources (windows, etc) and air drafts, since they may hinder the insect's flight.

The best positioning is between the entrance and the production points, so that insects can be captured before they arrive to the critical points
STRUCTURE The item is made of Stainless Steel metal sheet.

TECHNICAL SPECIFICATIONS:

Dimension:	665 x 390 x 235 mm
