- ❖ Hygienic, clean and easy to replace glueboard
- ❖ Noiseless, odorless and highly effective!

IKAWA PROFESSIONAL INSECTS LIGHT TRAP EQUIPMENTS

IKAWA PRO IK-TAC700

Ideal for café/ lounge/ dining area/bar/restaurants

IKAWA PROFESSIONAL INSECTS LIGHT TRAP MODEL IK-TAC700 is the perfect solution to fly problems in restaurants. Flying insects are attracted to the high-intensity Synergetic UV light and are captured by the adhesive board hidden inside.

Ideal for large lobbies, bars and dining areas, IK-TAC700 keeps insects hidden from view, allowing ultimate discretion in sensitive areas. This wall-mounted design fly trap can be installed up to a maximum of 6 feet. It is specially designed for easy maintenance and its white powder coated steel makes the unit more durable and long lasting.

IK-TAC700 is more hygienic, easy to maintain compared to the traditional electric zappers which kills insects then spread infection into our air as well as hiding all trapped insects in plain sight. Our mission is to bring the most hygienic ways to prevent the flying insects fragmented showering viruses and bacteria to your diner-patrons.
